Solutions for coatings with
reduced heat absorption

Information sheet Helio Beit® heat reducing Pigment Paste

With our new pigment paste Helio Beit® CW 910 (black with reduced heat absorption) we have expanded our assortment with a waterbased black paste whose heat reduction is around 70%, in contrast to standard black pastes.

Our technical service offer

We support you to implement the functionality "heat reduction" to your systems.

Recommendations for our pigment pastes for the development of color shades with reduced heat absorption.
